The Show Tonight.

It took "old boy" and his most earnest eays to stop the two months' run of Ward and Vokes, and their big travesty company in Chicago last summer. Until the heat was positively unbearable in July, the people of the windy city flocked to see the big show provided by this organization. "The Floor Walkers," which was used during this run for the first time, is the new vehicle for this season's road tour and it will be seen at the opera house tonight.

OBSERVE AND THINK.

There is an object which Wallace and his henchmen have in view respecting the future of the State, but there is not anything included in it that will benefit the people, or it would be seen, to the relief of everybody in the country. Wallace and the sort who aid him are not men who are desirous to develop anything whereby the commonwealth would receive advancement. Their work is to manipulate politics to control the State for the present and future, which means continued subjection of the people to the will of C. O. Wallace.

When the people are under the direction and control of a man, all else that belong to them is also subject to his will. To keep the State a "rotten borough" is the object in view, which object has been the controlling idea in the mind of Wallace since he has ruled the people; which will continue to be his purpose, to their disgrace and the humiliation of their children to the end of his dominion over them.

When we have arrived at a conclusion that the men in Nevada are sufficiently intelligent to direct its affairs, the demoralizing methods of Wallace and the men who aid him will close and a change will come that will give freedom of action not known to our people. Who is this man Wallace, that he should come among us and rule over us? It is not surely his intellectual power that gives command over the lives of the people and the destiny of the State, present and future. It is not his moral force or example that confers authority, through the approval of a willing people, for benefits derived in a way that tends to their moral and intellectual elevation.

It is not the interest he takes in the material development of the industries of the people, or the aid they receive from his intellectual presence or learned instructions. It is not in the all controlling will power of the man which is supported by mental force that causes his servants to bow down and worship. It is not his sweet disposition, modified and refined by culture and a life of high spiritual attainment.

We have not learned that Mr. Wallace visits our schools to give lessons in morals, or lessons in the better sentiments and promptings of the soul that would tend to develop a higher and better life in the youth of the State. Nor have we learned that his evenings when among us are devoted to cultured or intellectual pursuits for the benefit of his associates.

Since there are none of the better principles present in Wallace that have been mentioned, will our better people detain their minds for a short time from their honorable pursuits and review the situation he has given the State, and ascertain the moving cause there is that gives him power over them, over their homes and over the present and future moral standing of their children.

We are informed that he commanded the Governor of the State the other day in committee to sit down which command the Governor obeyed. Any ordinary man would have objected to obey the mandate but an explanation for the obedience of the Governor is found in greatness veiled in modesty. Will any of his friends inform the people in the State of Nevada upon the benefits there are derived to the State through his presence, or of the benefits derived as a result of his rule in it? Those who obey him should have a cause for their obedience that they are not sorely ashamed to acknowledge before the people and if they do not have such a cause, their obedience should cease as it has become a scandal to the better and more refined people in the State. The business and office of Charles Wallace is purely political in its character and his work is of a dual nature as it must of a necessity be such to make it a success to the interest and profit of those who employ him. It is his work and purpose to control the State through its politics which he must do to make his work profitable to his employer. To control the State, it is imperative he should have those in it who will aid him in his work to control through its political machinery. It is fairly presumable that Charles receives a salary for his services. Those in the State who aid him to control it, expect to receive and do receive compensation for what they do in some form. The considerations they receive for their services are the offices in the State. Not only the State offices, but township and county offices are made subservient to the gang whenever they can be so made.

We are aware that the people in the

State who do the larger part of the voting when the tickets are made up do not understand the methods in detail by which the work is carried forward, for which cause it may be a question in the minds of many of them respecting the manner of the work in outline. We have said repeatedly in these columns that the people of Nevada are the most enslaved people in the United States, and the most enslaved people under any enlightened government on the earth, and we repeat it, should the work of an assassin not overtake us as it has been frequently threatened that it would, it is our intention to give to the people the methods of the gang in detail.

NEWS OF THE STATE

Brief Items of Local and General Interest to Our Readers.

Seventy-five head of horses were shipped from Eureka to Iowa last week. They were bought for \$12 per head.

The total vote cast in this State at the last Presidential election in 1896 was 10,315. Bryan and Sewall electors had a plurality of 5,865.

It is reported that the cyanide plant at Ballingville, Lincoln county, is to resume work on ore tailings of which there is a large accumulation.

The V. & T. company is repairing the tunnel at Lakeview. The crew is doing the work at night. The shift being from 7 p.m. to 7 a.m. It will take several weeks to finish the work.

The Con. Cal. and Virginia mine is looking well and in a fair way to again become a large producer of bullion. The south-end mines have already taken the initiative in preparations for the installation of electric power, which will be available for all mines along the lode by August next at the latest. This should brighten up the situation materially, and it undoubtedly will have a reviving effect in time.

Gun Fighting on the Comstock.

A serious shooting affray occurred yesterday on the Comstock. The principals were Foreman Higginson of the Hale & Norcross mine and Richard Tobin, senior. The former is in a critical condition. The Virginia Report says:

It appears that Tobin and Higginson met in the little house near the Hale & Norcross works this morning about 11:30 o'clock, that an old quarrel was renewed and that pistols were drawn. Tobin claims that Higginson fired first, and Higginson says that Tobin was the aggressor. Anyhow, Higginson was shot in the lower part of the left side of the neck, just above the collar bone. Tobin's weapon was a 44-calibre Star bulldog, and Higginson's a 38-calibre Colt. Judging from the two weapons, which are now in the possession of the sheriff, Tobin fired three times and Higginson twice.

Excellent Ore.

A number of samples from the recent strike made on Peavins mountain have been brought to town. If Mr. Brown and his associates can open up a foot of this ore, and they hope to get ten, they are mighty lucky people.

The claim was discovered by the prospecting party which was sent out by the Nevada Exploration and Development Company. A meeting of the directors and stockholders in the company will take place this evening at the office of Frank Norcross. They will then decide how the property is to be worked.

A Life and Death Fight.

Mr. W. A. Hines of Manchester, Ia., writing of his almost miraculous escape from death, says: "Exposure after measles induced serious lung trouble, which ended in consumption. I had frequent hemorrhages and coughed night and day. All my doctors said I must soon die. Then I began to use Dr. King's New Discovery for Consumption, which completely cured me. I would not be without it even if it cost \$5 a bottle. Hundreds have used it on my recommendation and all say it never fails to cure Throat, Chest and Lung troubles." Regular size 50c and \$1. Trial bottles free at S. J. Hodgkinson's drug store.

Nevada's Loss.

Rev. Mr. Eddy, who has been rector of the Episcopal church in Carson for several years will leave there tonight for his new sphere as dean of the Cathedral in Salt Lake City. Another good man gone from Nevada to enrich a neighboring State.

Is Quite Laughable.

From all accounts, gleaned from the Carson and Virginia papers, the play to-night will be a side-splitting affair. It possesses true merit and the quality of success, or it would not have enjoyed the runs it had in the east.

A New Stand.

Nick Hammermith has moved his barber shop to the corner of First and Virginia streets. The new stand is called the Riverside Tonsorial parlor. It was opened for business yesterday.

THE SULTAN MUST PAY UP OR FIGHT

Special to the JOURNAL.

WASHINGTON, April 17.—Uncle Sam has grown tired of the delays of the Turkish government in settling the claims of the American missionaries who suffered in the Armenian outbreaks. The United States will no longer brook delay that amounts to insult and in a few days diplomatic relations will probably be sundered as preliminary action to compel the Sultan to settle the claims or fight.

We have saved many doctor bills since we began using Chamberlain's Cough Remedy in our home. We keep a bottle open all the time and whenever any of my family or myself began to catch cold we begin to use the cough remedy, and as a result we never have to send away for a doctor and incur a large doctor bill, for Chamberlain's Cough Remedy never fails to cure. It is certainly a medicine of great merit and worth.—D. S. MEARLE, General Merchant and Farmer, Mattie, Bedford county, Pa. For sale by Wm. Finniger.

It is very hard to stand idly by and see our dear ones suffer while awaiting the arrival of the doctor. An Albany (N.Y.) dairyman called at the drug store there for a doctor to come and see his child, then very sick with croup. Not finding the doctor in, he left word for him to come at once on his return. He also bought bottle of Chamberlain's Cough Remedy, which he hoped would give some relief until the doctor should arrive. In a few hours he returned, saying the doctor need not come, as the child was much better. The druggist, Mr. Otto Scholz, says the family has since recommended Chamberlain's Cough Remedy to their neighbors and friends until he has a constant demand for it from that part of the country. For sale by Wm. Finniger.

Didn't Know It Was Loaded.

He walked to Amedee to have the wound treated.

NATAL DAY

CELEBRATED

Reno Wheelmen Commemorate the Founding of Their Club.

The Reno Wheelmen's Club was four years old last night, and right merrily was the event celebrated. It was ladies' night at the club rooms. Three hundred members and guests thronged the hall. A program was announced and each number was rendered with consummate skill and heartily cheered.

Mrs. Jacobs played a piano solo by way of overture. She also accompanied the soloists who appeared later on the program.

A recitation by Leo Dickey was next in order. Then a mandolin selection by Mr. Kinney, assisted by Miss Cecil Linn. A solo by George Ward followed.

All present enjoyed a three-round exhibition of the many art of self defense.

The principals were Elbert Stewart and George Lamb. The former was seconded by Mitchell, Nathan and Francovich. Lamb's seconds were Julien, Torler and Shannon. Sam Moxingo, as usual, refereed. There were some fine points scored by both principals. The bout was declared a draw.

The invincible Dick Tobin favored the audience with two cornet solos in his usual artistic style.

Amid great applause Rev. F. Verpon Jones, "our own all-right sky pilot" was introduced. Mr. Jones is the orator and brother of the boys and they show their appreciation of him. The speaker was in his usual humorous vein, but he told some plain truths in plain language. "None of us boys," he remarked, "have yet sprouted wings, but we live among you and our lives are an open book. None of us have ever yet gotten into jail."

He detailed the purposes of the club and spoke of its means of recreation and passing the leisure moments, challenging anyone to point out anything that was not good and creditable to the members.

At the conclusion of the address there was a solo by Mr. Blair.

Last upon the program was the banquet, and a delightful one it was.
